

## PRACTICAL PISTOL (IPSC)

Practical Shooting is a quick and energetic discipline that caters to Rimfire and Centerfire pistols, revolvers and rifles, and shotguns, with each having their own classes. Most matches comprise a minimum of three stages and the courses of fire are designed to offer challenging and active scenarios that test the capacity of the shooter and their equipment. The targets are mainly paper, cardboard or steel, and the competitor is scored on their accuracy and time in comparison with all the scores and times shot on the day.
